

# WANT A SKATEPARK AROUND HERE?

## ELDER'S MILLS MULTI-USE RAMP PARK

There has been a deputation to the city to construct a Multi-use Skatepark Facility in Napa Valley Park (80 Napa Valley Avenue)

Our youth are forced to board and bmx in the streets in this neighbourhood. Every day kids who have outgrown the playgrounds are out waxing curbs in the parking lot and dodging traffic.

The City wants to build this park, we just need them to know that the community supports and needs this facility! There will be a budget meeting some time in January to determine whether or not the City will fund the construction.

Whether you bike, board, blade, scooter or just like to watch, please participate in the discussion and make sure this gets going.
